

Greetings!

The Irish Society of the National Capital Region and **The Ottawa Gaels Gaelic Football Club** invite you to participate in our annual Golf Tournament Fundraiser!

Why are we raising funds?

- *The Ottawa Gaels are a non-profit organization dedicated to promoting and offering the Irish sport of Gaelic Football to the Ottawa community. Our main fundraising goals are geared towards providing our Youth teams with equipment, fields, coaches, and kits. By providing all the necessary resources for these kids, we ensure that they are keeping active, gaining valuable teamwork and social skills, and learning an exciting Irish sport!*
- *During the month of March, The Irish Society organizes and provides Ottawa with a spectacular schedule of cultural, artistic, and family-friendly events that revolve around the St Patrick's Day Parade. As a non-profit charitable organization, The Irish Society relies on fundraising efforts to be able to offer these events to the community.*

This Golf Tournament is an integral part of our joint fundraising efforts and we are continually seeking sponsors and players to participate. As well, we are looking for prize donations as we plan to raffle these prizes off during the tournament.

In addition to joining us for a day of golf, we encourage you to consider a sponsorship relationship with us! We are appreciative of all sponsors, and strive to reciprocate in the relationship by creating a high-visibility platform to market your business during the on and off-season. We will promote your business on our websites, social media platforms and at all events with signage and/or banners!

Please see the current player and sponsorship packages on the enclosed page.

This year our tournament is being held at Mont Cascade Golf and County Club on Saturday June 11th, 2016.

Thank you for your consideration, we look forward to partnering with you!

Please feel free to contact us for more information at info@ottawagaels.ca or by calling Vanessa McLean at 613.304.5705.

Sincerely,

Vanessa McLean
